

Black Alloy Bonnet Pins

Short Description

Black Alloy Bonnet Pins

Give us a call on 09 525 6858 to find out price and availability.

Description

Lightweight alloy bonnet pins, suitable for all forms of motorsport, including Race, Rally, Autograss, Track day, Oval Racing and more. The Alloy bonnet pins feature a captive slide pin and 7/16" UNF thread shank.

These widely used bonnet pins have the retaining pin in a channel so there is no wire to spoil the look (or catch the scenery !) These are made in lightweight alloy with an anodised finish.
