
Pro Class Parachute 220-320mph

Description

Pro Class Parachute 220-320mph (DJ851079)

DJ Safety manufactures these parachutes to suit Pro Class cars that can reach speeds of 330mph. This makes it suitable for Top Fuel, Top Alcohol & Top Doorslammer. They are made from a very strong long lasting material that can take the severe strain of being deployed at high speeds.

The chutes are a 12ft crossform design with eight canopy lines. They are designed to be used for vehicles reaching up to 330mph

Parachutes come ready for racing, complete with Pilot Chute, Silver chute pack and Safety flag/pin. Available in a variety of colours.

Features:

- Pack is reinforced aluminized Kelvar with 4-door lid.
- Main chock sleeve is covered in aluminized Kevlar
- Main canopy panels constructed of reinforced ripstop nylon with 8-point attachments.
- Leather reinforced Pilot chute features a compression launch spring system
