
DJ Safety Chute Release Cable

Description

DJ Safety Chute Release Cable (DJ852200)

DJ Safety produces this handy universal chute release cable and lever that will suit any chute and vehicle. Made from a solid core wire with a protective outer cover and utilising a positive threaded bulkhead for mounting.

The lever is a curved handle with a unique attachment which allows the lever to be used either way depending on the direction of the cable.

Cable is 13ft or 4 metres long and can be shortened to the desired length.
